

Job Description

Midweight Interior Designer & Project Manager

The Company: Vickers Studio is an award winning design team principally for exteriors and interiors of prestigious superyachts and motorboats. Their portfolio also includes interior architecture projects. The Studio is experiencing a period of growth and as a result is looking for someone to join their friendly team to help deliver some exciting new designs.

Location: Vickers Studio is based in Rowlands Castle. Occasional remote working may be available by arrangement.

Hours: Full time - 35 hour week

Salary: £25,000 to £35,000 dependant on experience

The Ideal Candidate: has at least three years relevant post graduate experience within a high-end interior design studio, preferably in yacht design. The role would suit someone looking for their next step taking on more project management and taking control of the full design process from concept to implementation. AutoCAD experience is essential to this role. The candidate must be able to follow a client brief and solve design issues as they arise. They must be happy to work as part of a small team reporting to the design director.

Key Roles and Responsibilities:

- Creating and designing AutoCAD interiors
- Creating project schedules and costings
- Creating presentations for client review with meticulous detail
- Creating technical drawings, space plans, elevations and bespoke joinery drawings
- Finding solutions to difficult problems in a calm professional manner
- Liaison with clients, contractors and suppliers with a high level of professionalism
- Attending client meetings in the UK and abroad
- Assisting with FF&E
- Providing support and mentoring to the Junior Designer
- Assisting the Design Director in general business activities as required

Essential Skills

- Exceptional attention to detail
- Excellent verbal and written English

- Good understanding of space planning
- Capacity to deal with multiple projects at a time
- Indepth knowledge of furniture and finishes
- Ability to take FFE projects from concept to installation
- Creativity with an organised, thorough and enthusiastic approach.
- Highly experienced with MS Office, specifically Excel, Word and PowerPoint.
- Highly experienced in using AutoCAD and Adobe Photoshop.
- Highly experienced with InDesign and Illustrator

Useful skills

- Software ability in using Rhino would be beneficial
- Ability to accept and give constructive criticism
- Ability to sketch freehand is an advantage
- Second language eg Italian, German, Turkish or Russian
- Sailing experience
